HISTORY & VALUES

FRANJUBA PAN S.L. was founded in 1948 in Jerez de la Frontera (Cádiz, Spain). From its humble beginnings as a wheat mill, it developed into a family-run bakery which has been expanding its facilities and developing new products over the years under the direction of three generations.

Currently FRANJUBA PAN S.L. manufactures not only the traditional concept of bread, but also breadsticks (picos) and crackers (regañás), as well as toast thins with berries or raisins and protein bread in different formats (pizza crust, buns, hamburger buns, etc.).

All these products are made from the best raw materials and are sold through distributors, supermarkets, and hypermarkets such as El Corte Inglés, Carrefour and Supersol.
